The Amendments.

Constitutional amendments, to be vote upon by the people of Kansas at the November lection, will be found in our columns. Without explanation, both are decidedly obscure, and calculated (as perhaps they were intended) to deeive and mislead the voter. The one prohibit ing the manufacture and sale of liquor, it will be erved, is to be placed upon the tickets in the words, simply, "For the Amendment," or Against the Amendment." Now, as any other adment might properly be placed under the ame heading, there is nothing to direct the voter, thousands of whom can vote intelligently only by others interesting themselves, on election explaining and arguing. Otherwise, they will vote either for or against, blindly. The ther is relative to taxation. The voter not conersant with the present wording of the Constiution, can have no idea of the object of that dment. We all know how careless a great many voters are, and how negligent about in ing themselves. The object of that amendment is to abolish the present exemption of \$200 girl was the daughter of J. A. Garfield. from taxation, thus taxing every dollar of the ssessions, which he cannot hide, to mense trade into the hands of Missouri dealers, while the other amendment proposes to the loss of revenue by the first amendment. Another question to be voted upon, is whether

Convention shall be called to frame a new Constitution. Our present Constitution was very ame to begin with, and has been amended and patched until it is a deformed nondescript. Why even the Constitution does not provide a method of getting the question before the people whether they desire a new one or not. Amendments are provided for ; but if a new Constitution is desired the Legislature makes the proposition, which thereafter lies buried in the volume of session laws. The proper authorities, after putting their heads together, have decided that there is no athority for giving it publication, but that it depends entirely upon the courtesy of newspaper publishers. As the State does not receive cour tesy in payment of taxes, there should be some rule of construction by which the powers that be can give publicity to such questions, without ponging on the printers.

10 will be entirely safe, and for the best inter rank in the war, is more deserving than a Gener-

ests of the State, for every voter to remember this, and act accordingly: Vote "No" on both ents, and "Yes" on the proposition to call a Constitutional Convention.

AN OLD TRICK .- One of the thinnest politica rugs-in fact, the thinnest, next after taking published lists of names of persons who have left tial campaign, there are a few persons in every emed to be rallying around Old Tippecanee, he has gone through without eating a morsel, back on its own advice ! 52, the Whig papers were fairly with names of Democrats who had rallied under the banner of Gen. Scott; yet Scott was terribly scaten, carrying but four States. In 1872, the ssions to Greeley amounted to a stampede, ecording to the Democratic papers, and yet b miniously beaten that the poor old man died within a few days after the election. The accessions to Hancock, with which the Dem ocratic papers are filled, will elect him like Van Buron, Scott, and Greeley were elected.

THE PRIMARIES .- We publish the call of the County Central Committee, which met Wednesday, for the election of delegates to the State Convention. No one can complain of not having ample notice, this time. A ticket for delegates will be in the field, in favor of preserving the Republican party from disruption, as threat ened by Gov. St. John, in his effort to saddle upon it issues never recognized by the party. This ticket will have no connection with the Central Committee, further than individual members of the Committee may favor or oppose it, the same as other voters; but it will be offered for the support of those who believe that the Republian party should be run upon Republican issues. and not be made a machine in the hands of narminded fanaties to destroy any portion of the great industries of the country. We offer this for the benefit of those zealons gentlemen in neighboring Counties, who may be seized with an itching to run the affairs of this County.

WESTERN NATIONAL FAIR. - The Pair to be held at Bismarck Grove, in September, promises to be National in fact, and to partake of many of the features of the Centennial. It is creating general interest throughout the East, and will attract a large number of people from all parts of the country. It will have an Agricultural Hall, a Machinery Hall, and an Art Gallery, and the remiums are open to competition from all the States, except such as are specially designated otherwise. This attraction of people from abroad is what is going to prove of the greatest value to Kansas. This is why we urge Doniphan County to contend for the premium for County exhibits, that the world may see what we can do, and people be induced to come here.

REPUBLICAN DOCUMENTS .- Republican County and local committees can procure valuable campaign documents at merely a nominal price, for distribution among voters. They consist of speeches of Garfield and other statesmen on opics of the day, and contain information and ntiments that cannot be too widely diffused. They may be had at the remarkably low price of 20 to 40 cents per 100, by addressing orders with money to Geo. Frs. Dawson, Treasurer of Repub-Bean Congressional Committee, 1317 F Street Northwest, Washington, D. C.

13 The papers frequently speak of Jim Steele, of Wichita, and it is announced that Capt. James got each other by the beard, and made the Steele, of Wichita, will be a candidate for Governor. Now, Jim Steele's name happens to be case, it was literally "guiden threads among the John Marion Steele, but Jim may be short for gray. that name. Capt. Jim Steele is altogether another person. He was a popular contributor to the Kausas Magazine, and the author of "Coronado's March," and is now a Consul somewhere in the Islands of the Spanish Main. John M. Steele, of Wichita, could be cut up into about seventeer of the other one, as far as bulk goes.

Three of the prominent Republicans whom the Democratic papers are heralding as having abandoned Garfield for Hancock, are Gen. Sigel, Geo. Wilkes, of the Spirit of the Times, and Judge John B. Stallo, of Cincinnati. All of them left the party in the Greeley campaign, and have acted with the Democratic party ever since, even to voting for Tilden. Sigel has been a Demo-eratic candidate, since he was a Republican.

The St. John papers have discover utrage perpetrated by the Republican State nittee, in fixing the primary elections for delegates to the State Convention on the very day when the temperance camp-meeting at Bismarck Grove will be in full blast, and St. John and his friends will be there, and cantool look after the primaries. This thing is be-coming interesting, for a facts. Not only is every well, and remembers their names; then he pro-Republican who happens to be spoken of for Governor, a "Whiskeyite," and a tool of the Republican who happens to be spoken of for Governor, a "Whiskeyite," and a tool of the "Whiskey Ring," but the State Central Committee is denounced for not consulting St. John and his temperance crowd, and ascertaining when it ty, and so on." his temperance crowd, and ascertaining when it would snit their convenience, and not interfere with any of their temperance blow-outs, to have poor memory, and should not undertake to corthe primaries held.
